We’re super excited to bring you these patterns in partnership with the lovely people at The Fabric Store. With a passion for all things sewing, they stock an incredible range of fabrics – think quality linen, silk, cotton, merino and even leather – at their Sydney, Melbourne, Brisbane and New Zealand stores, as well as a small selection online.
In the Folds patterns are designed to inspire and encourage modern makers to create garments that are beautiful both inside and out. Through selected techniques and construction details, In the Folds aims to encourage thought-provoking and memorable making experiences - helping you enjoy each stitch in the process.

Techniques may differ slightly from the home sewing methods you are used to, but in some cases industrial finishes will give you the cleanest and most professional finish.

Seam allowances are included and detailed in each step. You will notice that in some cases the seam allowances meet each other at different angles at the end of the seam. This is so that when you press the seam allowances open the seams will sit flush with the edges and will help you get a clean finish.

Consider using fabric from your stash before going to buy something new. I dare you. You might be surprised by what you find there.

Before selecting your fabric, really think about how this garment will fit into your wardrobe and how you plan to care for it. Choose a fabric that fits the bill. Please consider the environment before printing this booklet.

Happy sewing!
**GARMENT OVERVIEW**

The **Wrap skirt** is a three-quarter length skirt with a waist tie, that sits on the natural waist. The skirt features front and back waist darts, french seams and a buttonhole to feed the waist tie through.

**FABRIC SUGGESTIONS**

The **Wrap skirt** is compatible with a wide range of fabrics. For a soft silhouette, consider using: lightweight cotton, linen, viscose / rayon or silk. For a more structured silhouette, consider using mid to heavy-weight fabrics such as: cotton drill, linen, denim or wool.

**NOTIONS**

- Coordinating thread
- Optional: Small piece of lightweight iron-on fusing (2.5cm x 7.5cm / 1in x 3in)
SIZING + GARMENT MEASUREMENTS

NOTES ON FITTING

The pattern is drafted for a height of 170cm (5'7’”). Use the LENGTHEN / SHORTEN lines on the pattern to adjust the finished length.

The pattern is nested so that you can grade between sizes if necessary. Simply print the sizes you need and draw a diagonal line between the sizes to grade between them.

Please note: if you are using fabric with a directional print, you may require more fabric to get your desired print placement.

You will also require more fabric if lengthening the skirt.
PRINTING THE PATTERN

PAPER SIZE

This pattern can be printed on both A4 or US letter-sized paper. There is also a full sized version included so that, if you’d prefer, you can get it printed on full sheets (4 x A0) at your local copy shop.

LAYERS

This pattern has embedded layers. This means that you can select only the size/s you would like to print.

Layers make it much less confusing to cut out the pattern, and also saves on ink (and paper in some cases).

Open the pattern in Adobe Reader and click on the ‘layers’ option on the left hand side. There will be an eye next to each layer in the pattern. Turn off (by clicking) all the layers you do not need.

Please note, at the time of publishing, layers are not available on Preview (Mac). You will need to install Adobe Reader to access this feature.

Please note: The ‘PATTERN INFO’ layer needs to be on for all sizes.

SCALING

Open the pattern in Adobe Reader. Before printing the file, you will need to check the scaling settings on your printer. The pattern needs to be printed at its true scale. To do this, go into your print settings and select ‘actual size’ or set page scaling to ‘none’ or ‘turn off page scaling’.

Print only Page 1 of the pattern, and check that the large test square measures 5cm x 5cm, or the smaller one measures 1in x 1in. It really needs to be precise, so if it is not quite right, you will need to go back and check your printer settings again.

PRINT

When you have the scaling right, print the remainder of the pattern. Depending on the size/s you need, you may not need to print all the pages.

There is a printing plan on p 7.

Please note: when printing from Adobe Reader, make sure the print orientation is set to ‘Auto portrait / landscape’ - this will ensure the border of each page will be printed.

ASSEMBLE

Cut the border of each page - on one long side and one short side (keep your choice of sides consistent between pages). Align the circles so that 1A matches up to 1A, 2A with 2A etc, and tape or glue in place.

Use the printing plan on p 7 as a reference, if required.
PRINTING PLAN

FRONT - LEFT SIDE WRAP

Please note: due to the high number of pages in this pattern, the pattern has been broken into four sections for easier handling.

FRONT - RIGHT SIDE WRAP

BACK

WAIST TIE PIECES

FOR PERSONAL USE ONLY
CUTTING YOUR FABRIC

Wash and dry your fabric. Use the method you intend to use when washing your garment so it doesn’t shrink after its first wash! Give your fabric a good press before cutting.

Take your pre-washed fabric and lay it out on a cutting table or other flat surface with right side facing up - this is important because the skirt is asymmetrical (one side of the wrap is longer than the other). Smooth out any wrinkles in the fabric.

Take your pattern pieces and lay them on your fabric, with the grainline of each pattern piece running exactly parallel to the selvedge (use a tape measure to measure from each end of the grainline, ensuring your pattern piece is on grain). Use the cutting plans on pp 9 - 10 as a guide.

Use weights or pins to hold the pieces in place. Carefully cut out each piece. Be sure to transfer all pattern markings onto your fabric.

To mark a notch, snip into the fabric 6mm (¼in). The buttonhole can be marked when cutting or when you are ready to sew it. Mark drillholes with tailors chalk on the wrong side of the fabric or with a single stitch in a contrasting thread (by hand).

TIPS

• Take notes of any changes you make to the pattern as you go. This will help you when you use the pattern again (there is a section for this on p 18).
• If you are using silk or a similar substrate, consider cutting your fabric sandwiched between two layers of fine paper (pinning and cutting through all three layers). This will help keep the fabric on grain, and ensure the fabric doesn’t move while you are cutting. Use silk pins, and a nice sharp fine needle on your sewing machine.
• Avoid mixing up the pieces by leaving the pattern pinned to the fabric until you are ready to sew the particular piece.
• Enjoy the process! It’s not a race to the end.
SUGGESTED CUTTING PLANS
(SIZES A - E)

PIECES TO CUT
1 - Front - Right side wrap - cut 1 right side up
2 - Front - Left side wrap - cut 1 right side up
3 - Back - cut 1
4 - Waist tie - Right side - cut 1 right side up
5 - Waist tie - Left side - cut 1 right side up
6 - Buttonhole reinforcement - cut 1 interfacing only (optional)

115cm / 45in fabric

150cm / 60in fabric

TIP: measure the waist tie pieces for your size and tie something around your waist to imitate the waist tie. Check that it has enough length to get the right sized bow for your taste.

Add extra length to both WAIST TIE pieces [4 + 5] if necessary.

TIP: Be careful of pattern piece placement if using a printed or directional fabric, noting which pieces need to be laid out right side up, and note the GRAINLINE indicates the CENTRE FRONT and CENTRE BACK.
SUGGESTED CUTTING PLANS (SIZES F - J)

PIECES TO CUT
1 - Front - Right side wrap - cut 1 right side up
2 - Front - Left side wrap - cut 1 right side up
3 - Back - cut 1
4 - Waist tie - Right side - cut 1 right side up
5 - Waist tie - Left side - cut 1 right side up
6 - Buttonhole reinforcement - cut 1 interfacing only (optional)

TIP: Be careful of pattern piece placement if using a printed or directional fabric, noting which pieces need to be laid out right side up, and note the GRAINLINE indicates the CENTRE FRONT and CENTRE BACK.

TIP: measure the waist tie pieces for your size and tie something around your waist to imitate the waist tie. Check that it has enough length to get the right sized bow for your taste.

Add extra length to both WAIST TIE pieces [4 + 5] if necessary.
These instructions guide you through making the Wrap skirt with french seams.

Seam allowances are noted in each step.
For help with sewing terms, see GLOSSARY on p 17.

Happy Sewing!

SEW DARTS

**STEP 1**

**A** Take the BACK [3] and form each dart by matching the notches and folding towards the drill hole - with right sides together. Press in place. Pin from the notches to 1.2cm (½in) beyond the drill hole.

If you like, you can draw in the stitch line with a ruler and erasable fabric pen so that you have a guideline when sewing.

Stitch down the dart to the point beyond the drill hole (this way the drill hole marking will remain hidden inside the dart).

**B** Press the bulk of each dart towards the centre back and press well from the right and wrong sides.

**STEP 2**

Take the FRONT - RIGHT SIDE WRAP [1] and with right side together, fold the dart from the notches down to the drill hole and press. Pin, then stitch dart, finishing 1.2cm (½in) beyond the drill hole - as in STEP 1. Press the bulk of the dart towards the side seam. Repeat process for the FRONT - LEFT SIDE WRAP [2].
**FINISH WRAP EDGES**

**STEP 3**
With the FRONT - RIGHT SIDE WRAP [1] and FRONT - LEFT SIDE WRAP [2] right side down, turn back the straight sides on each piece by 1.2cm (½in) and press. Turn back by another 1.2cm (½in), enclosing the raw edge inside the seam. Press and pin before stitching close to the folded edge to secure.

**SEW SIDE SEAMS**

**STEP 4**
Sew the front and back pieces together with french seams. To do this, with wrong sides together, pin the FRONT - RIGHT SIDE WRAP [1] and the FRONT - LEFT SIDE WRAP [2] to the BACK [3] at each side seam. Stitch seams with a 6mm (¼in) seam allowance.

**STEP 5**
Press seam allowance to one side, before trimming down the seam allowance by half (3mm / (⅛in)).
STEP 6

Turn the skirt inside out and press the side seams flat. Pin the side seams again, this time enclosing the raw edges inside the new seams. Stitch with a 6mm (¼in) seam allowance.

Press seam allowances towards the back of the skirt.

STEP 7

Take the WAIST TIE pieces [4 + 5] and pin together at the centre back seam (the side that has the double notches), with right sides together. Stitch seam with a 1.2cm (½in) seam allowance. Press seam open.

STEP 8

STEP 9

Pin the long edge of the WAIST TIE [4+5] with the notches to the waist of the skirt, with right sides together. Start at the centre back and then use the notches and seam lines to guide you. Stitch with a 1cm (⅜in) seam allowance.

Press the seam allowance up towards the WAIST TIE [4+5].
STEP 10
Flip the top of the WAIST TIE [4+5] down so that you can fold it in half on itself and pin along the long open side on each end of the WAIST TIE [4+5]. When you get to the edge of the wrap on each side, fold back the seam allowance on the skirt and pin (this will help you get as close as possible to the wrap).

Stitch WAIST TIE [4+5] closed with a 1cm (⅜in) seam allowance.

STEP 11
Trim seam by 6mm (¼in).

STEP 12
Take a bodkin and turn each end of the WAIST TIE [4+5] right side out.
**STEP 13**
With right side down, press each end of the WAIST TIE [4+5]. When you reach the part that is attached to the skirt, continue pressing so that the WAIST TIE [4+5] is folded in half on itself. Turn the raw edge of the WAIST TIE [4+5] under by 1cm (⅜in) and then press in place (the folded edge of the waist tie will just cover the stitch line underneath). Pin along the folded edge.

**STEP 14**
Flip the skirt to the right side and pin through the ditch (the seam line that joins the skirt and the waist tie) before removing the pins from the other side. Stitch in the ditch.

**STEP 15**
Finish each raw end of the WAIST TIE [4+5] by turning the seam allowance in by 1cm (⅜in) and pressing. Stitch close to the edge to secure.
**SEW HEM**

**STEP 16**
Turn up hem by 1cm (⅜in) and press. Repeat to enclose the raw edge inside the hem.

**SEW BUTTONHOLE**

**STEP 17**
Stitch close to the folded edge.

**STEP 18**
Stitch a buttonhole on the WAIST TIE - RIGHT SIDE [4], using the marking on the pattern to guide you. Cut buttonhole open and feed the WAIST TIE - RIGHT SIDE [5] through the opening.

Give the skirt a good press and you are ready to wear it!

We’d love to see your Wrap skirt!

GLOSSARY

BASTE
Sew temporary stitches to hold pieces in place before sewing permanently. Basting can be done by hand or machine (on a long stitch length). Consider using a contrasting thread when basting to make stitches easier to remove later.

GRADE SEAM ALLOWANCES
Minimise bulk by trimming down raw edges in varying widths. Trim down the seam allowance that will sit closest to the body close to the stitch line. Trim the next layer, leaving a slightly wider seam allowance than the first, and so on until all layers are trimmed back.

TRIM
Cut back a seam allowance to make a seam easier to manage or less bulky.

SEAM ALLOWANCE
The space between the stitch line and the raw edge of the fabric. Seam allowances are included in this pattern and are noted on the pattern pieces and throughout the instructions.

NOTCH
A notch is a small cut in the fabric that helps guide you while you are sewing. It can be used to indicate seam allowance, dart arms, the location of design details or indicate key points on the pattern (like the centre front or centre back). Notches are also used to indicate balance points (points on your pattern that help you sew the right pieces together, as well as help you when you are sewing long or curved seams).

PRESS
Use an iron to press seams flat, using steam (if appropriate for your fabric).

LEFT SIDE / WRONG SIDE
The right side of the fabric is the side you would like to see on the outside of the finished garment, while the wrong side is the side that will be hidden inside the garment.

RIGHT SIDE / WRONG SIDE
The right side of the fabric is the side you would like to see on the outside of the finished garment, while the wrong side is the side that will be hidden inside the garment.

INTERFACING
A (normally) fusible fabric that is used to stiffen or strengthen fabric, in certain parts of a garment. It is often used in collars, cuffs and button plackets.
